"Check Sheet" for Evaluation of DL Shoreland Based Upon the Assessme	nt
Survey (2024)	
Landowner:	
Evaluating Team:	
Parcel # (s)from Assessment:	
Parcel overlap features:	
Criteria and Zones:	
A. Riparian Zone: high water level up to 35' inland	
B. Bank Zone: the land and water interface	
C. Littoral Zone: plants, etc. in water extending from the bank	
C. Lindia Lone, plants, oto, in vater externally normale saint	
A. Riparian Features:	
1.Canopy: degree of cover	
Ground layer (shrubs/Herbaceous plants): degree of natl. cover	
3. Impervious Surfaces (types identified/% present)	
4. Manicured Lawns ( present/absent)	
5. Misc. other: list these	
6. Human Structures present (types)	
7. Run-off concerns (yes/no) area?	
B. Bank Zone:	
Bank Modifications present:(Y/N);describe	
Erosion (control features & degree of erosion present)	_
C. Littoral Zana	
C. Littoral Zone:	
Human Structures present and type:	
Aquatic Plant survey:	
a. Floating (lay on surface):	
b. Emergent (stick up out of water):	
c. Plant removal evidence: (Y/N)	
<ol><li>Exposed Lake Bed zone: evaluation of coarse woody habitat presence fron high water mark to 2' in depth</li></ol>	1
Rating scale: "0"= no branches on wood; "1" = few branches; "2"= tree trunk	
w. Full crown Landowner evaluation:	
4. Woody habitat touching shore evaluation	
Rating scale: "0"= not out of water; "1" = out of water and touching shore	
Landowner evaluation:	
5. Presence of woody habitat in the water	
Rating scale: "0" = < 5' of log under water; "1" = at least 5' of log is under wa	ter

Landowner evaluation:	
Recommendations:	 
Possible HLR practices:	
Other notes:
